COMMENTS:

Reasons for objection;

1. The proposed site is unsuitable for any number of new dwellings.
2. The site has a plethora of wildlife living amongst it including deers, foxes, badgers, ground-nesting birds, owls, newts and bats.
3. This site is in countryside so the new dwellings would be severely detrimental to the aesthetics of the adjoining nature reserve.

There a number of reasons why this site is totally unsuitable for this planning application and I hope Wokingham Borough Council give it much consideration before proceeding with their final decision.
