

Biodiversity statement in support of planning application at 1 Palmer Close, Wokingham, RG40 3EB

This statement is to determine if there are any signs of bats located within the void areas of the application property

The existing roof voids and areas of tile hanging have been exposed during the measured survey of the property. These areas were checked for signs of bat infestation.

During the examination. It was determined that there are no signs of guano or of existing or previous roosts detected within the roof void or wall voids.
