COMMENTS:

I strongly object to this development on the following grounds;
1 Increased traffic levels along a very minor single track road with few passing points
2 Increased flooding caused by more hard surfaces causing run off and thus flooding will become worse than it already is

3 Increased spread of urbanisation of what is a rural area.
4 Increased pollution risk due to increased frequency of flooding impacting drainage system risking sewage into water courses.
5 Low quality properties that are not in keeping with the area and probably not up to high efficiency standards are not only an eye sore but bad for the environment.
