SUBMITTED BY : Mr Hugh Whitfield
DATE SUBMITTED : 18/12/2024

COMMENTS:

As a villager - living 1/2 mile from the Horns., I fully support this application. The Horns has been the should have the village when it has been functioning - but it was never financially secure as a pub/restaurant and needs to diversify to include accommodation. Commitment and investment have been secured. Unless the project is allowed to go ahead the building will deteriorate and will never be restored, as the costs will escalate . To avoid an eyesore in the middle of this picturesque village there needs to be a vision of the future and this application provides an exciting and viable way forward that retains all the important external and internal features of the listed building .
