

## 8. BIODIVERSITY

## 2F Schwegler Bat Boxes.

### **Specification:**

**Material:** Schwegler Woodcrete

**Colour:** Black with grey front panel

**Dimensions:** 16 x 33 cm

**Weight:** 4 kg

The 2F Schwegler is manufactured from long-lasting Woodcrete, which is a blend of wood, concrete and clay which will not rot, leak, crack or warp, and will last for at least 20 - 25 years, making it suitable for long-term mitigation projects. Woodcrete is breathable and maintains a stable temperature inside the box and the 2F is painted black to absorb warmth. It also provides a rough surface for bats to cling to and climb up.

The 2F bat box can be sited on a tree or building and is best positioned at a height of between 3m to 6m in an open sunny position. A group of 3 to 5 boxes facing in different directions will provide a variety of micro-habitats.
