COMMENTS:

My previous objections uploaded on 31st July 2024, no.4575626 still stand.

You cannot build affordable, sustainable housing without an affordable infrastructure. It would be more useful to put an M&S or sainsbury's local there.

There are no useful bus routes, no foot paths to any amenities, no shops, no links to any transport like trains. If you live in the village you need 1 car per adult.
