COMMENTS:

Taking away the 11v11 and 9v9 pitches will be catastrophic to the teams who train and play at Millworth lane, we currently have around 4 matches on Saturdays, 2 11v11 and 2 9v9. 3 teams who train here in the week. There isn't any other pitches or training spaces available. This change will have a massive impact on 100s of children, mostly girls who just want to play football. For a lot of these children football is there release a place where they are happy and learn to socialise. I know from personal experience football has been the key to my daughter's mental health. You also have the young referees who will no longer have games to ref. Yet more young people that will be deeply affected by this proposed change. Please reconsider theses changes at Millworth lane. #LEATHERPLAY
