

Community Involvement Statement

This planning application is for the temporary extension to increase the hours of construction and demolition to between 0800hrs and 2300hrs, Monday to Friday, retaining operation hours of 0800hrs to 1300hrs on Saturdays, and at no time on Sundays or on Bank or Public Holidays.

This is operationally necessary in order to allow the construction contractor to power float the concrete floors at the site. The proposal required would be to temporarily increase the hours from 8am -11pm to allow them to pour the concrete floors over circa 16no days currently programmed between mid-January to March 2025.

No pre-submission engagement with the surrounding community has occurred. However, when the application is approved, the applicant will then write to the surrounding residents in advance of the works occurring, providing a contact name and number if there are any problems/issues arising.
