Dear Sir/Madam

13th January 2000

TOWN AND COUNTRY PLANNING (CONTROL OF ADVERTISEMENTS) REGULATIONS 1992
RE-SUBMISSION OF APPLICATION FOR ADVERTISEMENT CONSENT AT 25 SCHOOL GREEN

I have pleasure in enclosing the necessary documentation in order to re-submit this application for advertisement consent which is proposed to be located at the above address.

I have taken time to carefully assess the previous reason for refusal I am of the opinion that this display would stand an excellent chance of gaining consent in its revised form.

As a responsible and flexible outdoor advertising contractor we are committed to providing high quality displays and are eager to ensure that amenity and public safety issues are addressed to the satisfaction of your Council.

On behalf of this company I hope that the application, in its amended form, will now be acceptable for your Council and in the event that you wish to discuss any aspect of this submission or have any queries, please contact me at the above office.

This application is made as a 'free go' under the Town and Country Planning (Fees for Applications and Deemed Applications) Regulations 1989.

I look forward to receiving confirmation that this application has been registered and is progressing towards determination.

Yours Faithfully

Statement

25 School Green

AMENITY CONSIDERATION

The unit is an identical size to that found on bus shelters throughout the borough. According to our records the council has granted consent for 18 similar sized advertising panels in the borough.

The unit has been located in line with the edge of a forecourt, so as not to appear obtrusive. Together with the 4.4 metres wide forecourt and the 1.24 metres wide pavement, there is an abundance of space for the free flow of pedestrians. It is a high quality fabricated metal unit. Only the finest metals are selected for the design and manufacture of the unit. The unit has been designed to harmonise with the best of traditional and modern architecture. It has radius corners for an aesthetically pleasing appearance with public safety in mind, with a mirror surround on each display area. The unit is cleaned and maintained every two weeks to ensure a quality display which is expected by advertisers and landlords alike.

As can be seen from accompanying photographs the unit is located in a semi commercial area. There are several other shops in the area. There is other advertising in the area, such as trade signs. The proposed unit would blend in with the current advertising capacity without creating an appearance of clutter. Indeed, our contract uniquely allows us to remove all advertising including A-boards and the like within a 3m radius of the site. This results in a phased reduction of clutter and thereby substantially increases visual amenity.

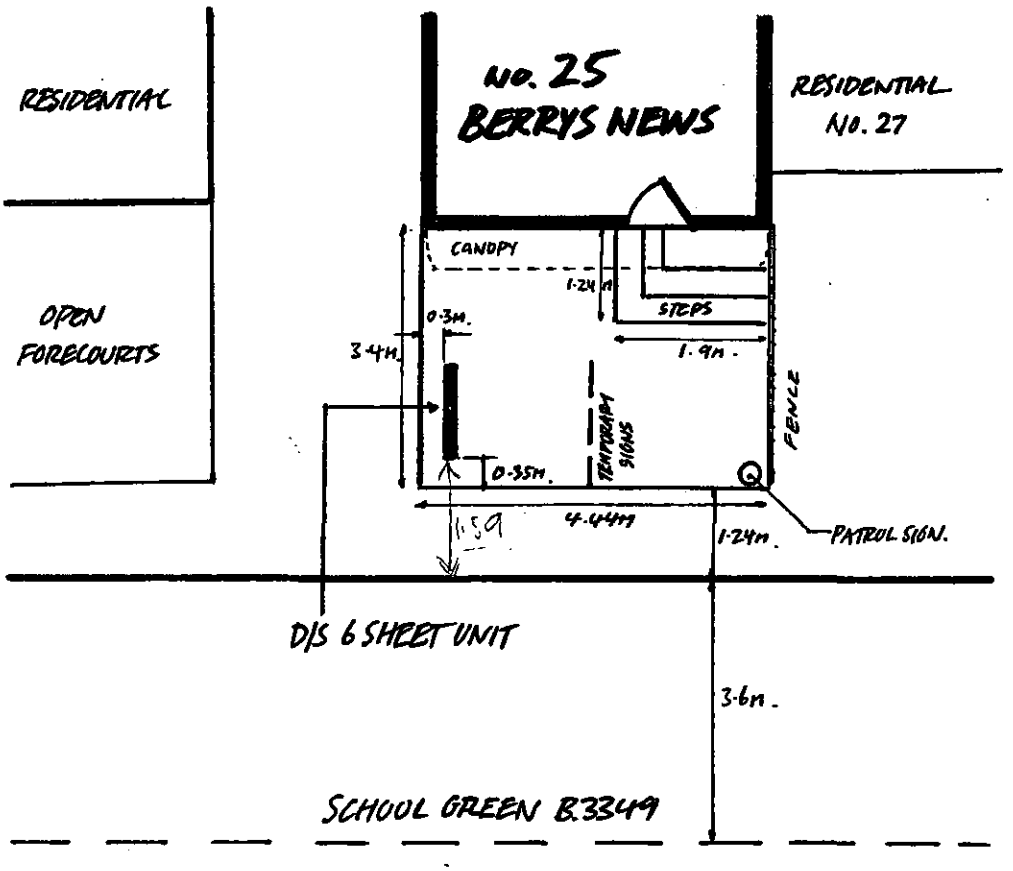

PUBLIC SAFETY CONSIDERATION

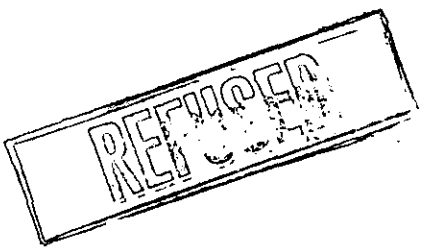

The unit has 6mm thick toughened glass and has a fused spur unit. The display poses no threat to public safety.

ECONOMIC CONSIDERATION

Retail Media Ltd pay a rent to the landlord to help sustain his business in the difficult economic climate faced by the independent retailers and the strong competition from major supermarkets. In addition Retail Media Ltd pay rates to the council and is also willing to offer additional planning gains.

IMPACT UPON CHARACTER OF AREA

Application Number: A/2000/1199

Appraisal:

The application being considered is a retrospective application for a free standing internally illuminated sign at 25, School Green, Shinfield. This is a re-submission of an application, which was refused permission on 21st December 1999. According to the plans submitted as part of the present application the scheme is exactly the same.

Impact upon the character of the area:

The area in which this application is located is designated as 'a local shopping centre,' which lies adjacent to an area of 'Special Character.' The area of Special Character includes 'School Green' and Shinfield School, which is a listed building. Although the area is a local shopping centre and is also included within the identified settlement, Shinfield is largely characterised by its countryside setting, particularly to the south of School Green, towards Hyde End Road.

It is considered that the proposed illuminated free-standing sign, which stands less than 2m away from the adjacent highway, to the front of 'Berry's News' is out of character with the surrounding area, and represents intrusive development in this area.

'Information contained in this form is likely to be personal data within the terms of the Data Protection Act 1984, and as such will be held by the Council on computer (such as the PLANAPS applications processing system) and may be used by the Council only for purposes registered under the terms of the Data Protection Act.'

NOTES

GENERAL

1. Under the Town and Country Planning (Control of Advertisements) Regulations 1989, many outdoor advertisements required "express consent" from the local planning authority (usually the district council) before they can be lawfully displayed. Applicants should refer to the Regulations for details.

Period of Consent

2. Normally the maximum period for which the Council will grant consent is 5 years; but they have discretion to grant consent for a longer period. If consent is required for a specific period of more or less than 5 years, this requirement should be stated in reply to Question 8 on the application form.

Drawing Required

3. The drawing of the proposed advertisement can be in black and white on paper. It should show the size of the advertisement and its position on the land or the building in question. For a sign, the drawing should indicate the materials to be used, fixings, colours, height above the ground and, where it would project from a building, the extent of the projection.

   The drawings should include a 1:2500 scale location plan showing the site edged in *RED*. All drawings should be submitted in quadruplicate.

Owner's Consent

4. It is a condition of every consent granted by or under the Regulations that, before displaying the advertisement for which consent is given, the permission of the owner of the land or other person entitled to grant permission shall be obtained.

Other Consents

5. A grant of consent under the Town and Country Planning (Control of Advertisements) Regulation 1989 does not rank as consent which may be required for any other purpose, e.g. 'listed building consent' where the advertisement is to be displayed on any listed building.

Fees for Advertisement Applications

6. Regulation 11 of the Town and Country Planning (Fees for Applications and Deemed Applications) Regulations 1997 requires a fee to be paid to the Council with the advertisement application. The fee is related to each site on which it is proposed to display one or more advertisements. The appropriate fee for the following categories of advertisement is:-

   1. Advertisements displayed on business premises, on the forecourt of business premises or on other land within the curtilage of business premises, wholly with reference to all or any of the following matters:- **£50.00**

      (a) the nature of the business or other activity carried on on the premises:
      (b) the goods sold or the services provided on the premises; or
      (c) the name and qualifications of the person carrying on such business or activity or supplying such goods or services.

   2. Advertisements for the purpose of directing members of the public to, or otherwise drawing attention to the existence of, business premises which are in the same locality as the site on which the advertisement is to be displayed but which are not visible from that site. **£50.00**

   3. All other advertisements. **£190.00**
