COMMENTS:

To add to my objections from 8 days ago:

1. Parking. Overspill parking in to local streets, most locally Park Road and Park Avenue, will be to the detriment of the amenity of those streets.

2. Highway safety. The disabled parking spaces shown on some of the plans, but not others, may not be long enough to accommodate disabled vehicles due to their adaptations often making them longer, which is of particular concern because of the vicinity of the spaces to the junction with Wellington Road.
