Dear Mrs Race,

**SECTION 211 NOTIFICATION OF WORK TO TREES WITHIN THE WOKINGHAM TOWN
CENTRE CONSERVATION AREA
APPLICATION NUMBER: 250460
LOCATION: 3 NICHOLSON MEWS, STURGES ROAD, WOKINGHAM, WOKINGHAM, RG40
2HD**

With reference to your notification which was received and validated on the 26th February 2025. I am writing to advise you that Wokingham Borough Council raises **no objections** to the proposed tree works being undertaken as specified within the Wokingham Town Centre Conservation Area.

Proposed works:

T1, Cork Oak – Fell and replace.

Reasons stated for works:

The existing tree is located in my back garden and was planted by the builder.

It is sited 65cm from one fence and 120cm from the other. The ultimate spread will be wider than 8m. It is competing for light and space with the tree next door (see photo). As it is in the back garden, it has no public amenity value. The tree is completely inappropriate for a garden of this size. With the recent growth it is causing so much shade that it is stopping other plants from growing. The Royal Horticultural Society states that is suited to large gardens and parkland. Due to health reasons I need a garden that is easy to manage. Gardening is my life but I cannot look after large trees.

Officer comments:

The trees do not meet the criteria for inclusion in a Tree Preservation Order at this time and the Wokingham Borough Council therefore raises no objections to the proposed works.

Informatives:

- 1) You are advised that, in accordance with Part 4, 17 (4) of The Town and Country Planning (Tree Preservation) (England) Regulations 2012, this decision is valid for **one pruning operation** (as per the approved specifications) to be undertaken **within two years** from the date of this notice, after which date the consent lapses, and a new Section 211 Notification will be required.
- 2) You are advised that this letter is in respect of the **Conservation Area only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.
- 3) Replacement planting. A minimum of 1 no. replacement to be planted within the rear garden of 3 Nicholson Mews, Sturges Road, Wokingham, RG40 2HD. The replacement tree(s) are required to meet the following criteria:
 - Following the removal of the tree as authorised by this notification response, a minimum of 1 no. *Euonymus europaeus* or another species with small to medium mature size, of “standard” or “selected” size (2.5 – 3.5 metres tall) at time of planting, is to be planted during the planting season (Nov – March) following or at the time of the felling of the tree, whichever is soonest.
 - Planted in accordance with British Standards BS 8545:2014 Trees - from nursery to independence in the landscape recommendations.
 - Planted in the planting season, November to March. Container-grown trees can be planted outside this time, but do not plant in periods of drought. For both types, avoid frosty soil.
 - Please let the Council know when the replanting has been carried out so that the Tree Officer may come and inspect the tree(s).

If we can be of any further assistance, please contact the Tree and Landscape Officer via development.control@wokingham.gov.uk.

Yours sincerely,

Chris Hannington - Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic meters or sell more than 2 cubic meters of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website: www.forestry.gov.uk
