COMMENTS:

I strongly oppose the plan because-Given the high amount of council tax paid by the locals, the council must only approve communities establishing educational centers that benefit the larger Wokingham and Winnersh community, not a subgroup.

Additionally, there aren't many Muslims in the neighborhood, and there are already 15 mosques within a 5-mile radius for those who choose to pray; adding more will just cause traffic problems.

Additionally, there are a lot of young girls in the neighborhood, and we have observed problems with gang grooming. Building mosques here will draw unemployed young men to the region. I kindly ask that you not support the plan.
