COMMENTS:

This is a small piece of land opposite where I live. The wild life (deer especially) have been driven way from this area. More wildlife will be lost. Tope Crescent cannot accommodate more traffic. There will be major noise and light pollution. The maisonettes are planned to be crammed into the corner opposite my house so I assume that they will be quite high. I will completely lose the last bit of green space to view. The area is relatively quiet but this will change completely if this estate goes ahead and change everyone's life who lives around here.
