Dear Nathan Cantell,

TREE PRESERVATION ORDER NUMBER: 1319/2009

APPLICATION NUMBER: 251520

LOCATION: 11 HERON DRIVE, TWYFORD, WOKINGHAM, BERKS, RG10 9DE

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on 2 July 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to Area 2 of TPO 1319/2009:

T1, Oak

- Restructure tree into pollard form at 8m, removing approx. 8m in height and creating a new lower structure
- Remove remaining of the failed branch to base

Reasons stated for works:

"The tree has experienced a significant failure, with the rear section of the crown splitting and falling into the neighbouring garden. Approximately 40% of the crown has failed, leaving the property side of the tree exposed and weighted in one direction. The failure occurred at a major union, and the affected section needs to be made safe, which will remove an additional 10% of the crown, leaving the remaining 50% unretainable and likely to fail. The proposed works aim to ensure the tree's safety and allow the Oak to regenerate a more compact crown. A lighter reduction would not be suitable and would leave the tree in a hazardous condition. Complete removal would be unfortunate, as the tree has a good chance of recovery and can continue to thrive as a mature species within the tree line, providing valuable amenity and habitat."

The consent is granted subject to the following conditions:

1. The above works must be completed before **29 July 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees to be retained.

Reasons for conditions 1-3.....

1. To ensure that our records remain accurate.
2. To ensure the health, safety and visual amenity of the tree(s) and ensure works are undertaken in accordance with recognised arboricultural good practice.
3. Climbing spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk

Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Trees and Landscape Team Manager

cc. Applicant: Lynn Binks, 11 Heron Drive, Twyford, Wokingham, RG10 9DE

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
