COMMENTS:

Dear Wokingham Borough Council

I am writing with regard to the radio antenna and supporting pole which number 4, Lancaster Gardens is proposing to be a permanent feature at the rear of their garden.

We STRONGLY OBJECT to this proposal. The structure would be clearly visible from

our lounge and garden, negatively impacting our outlook and the amenity of our

property. Considering the height, I am also concerned about the risk of damage, should

it fell fully or partially during wind, which happens a lot in this area. The suggestion that

it would be obscured is inaccurate. We are also concerned about potential health

implications related to radiation.

As residents with young children who spend significant time at home, this development

would directly affect our quality of life and risk of safety.

We also request that neighbouring properties are formally included in

all

correspondence, as they will be similarly affected. Additionally, we ask that Mr James

refrains from making unannounced visits, and that all communication is handled through

official channels.

We look forward to receiving formal notification of the application via the appropriate

council process and trust our objection will be fully considered.

Yours sincerely,

Ms.Jia LEI

14, Kennedy Gardens
