COMMENTS:

I would like to express my full support for this application.

I believe the proposed natural burial ground will be a valuable addition to the local community, offering a peaceful, respectful, and environmentally responsible alternative for families. The inclusion of new tree planting, ponds, and wildflower meadows will not only enhance the natural beauty of the area but also contribute positively to local biodiversity.

This project shows thoughtful planning, balancing community needs with environmental care. It will create a meaningful space for reflection while preserving and enriching the natural landscape for future generations.

Overall, I strongly believe this development will benefit the community and I fully support its approval.
