COMMENTS:

Please review the proposed front parking spaces that encroach onto our property (HM Land Registry documentation available) Title Number: BK278247 Dated: 16 January 2002.

The submitted plans inaccurately include land that is not within the applicant's ownership. According to HM Land Registry title documents dated 16/01/2002, this land forms part of my property. The boundary line shown on the potential plans is therefore incorrect.

Proposed working hours of building works are required due to night work shift patterns.

Assurance of tidy and safely executed building work is required that does not encroach or disrupt our property.
