COMMENTS:

The disruption already from what has been done up this road without prior warning is a joke, the way this is being done when we acquired land years ago which we were then told we could not build on. This now happens regardless off what impact it might have on the current residents. I care for my elderly grandmother here and the impact on her health with regards to the concern she has from all of this is completely unfair and we will not allow them to take over this lane.
