COMMENTS:

I wish to object to this application on the following grounds: 1)
the proposed development would be detrimental to the natural
environment currently enjoyed by local residents
2) it would significantly negatively affect local wildlife.
3) priority should be for development of brownfield rather than
greenfield sites like this one.
4) the strain on local roads and public transport would be greatly
increased.
5) the development is not suited to the current semi-rural nature
of the locality and would transform it into more of a suburban
environment
6) the separation between Finchampstead and pre-existing
development in Eversley would be seriously diminished.
7) there would be a major impact on already stretched local medical
services and schools.
