COMMENTS:

I am writing regarding the two objections raised.

12 Shepherds Hill

There is 22m from bungalow to house, which is the min. required distance between properties. Also you have a large garden room spanning the full width of your rear garden. and there is large bush and hedgerow that conceals your rear garden.

26 Shepherds Hill

Your downstairs office window is behind a tree and bush and your first floor landing window is over 10m from the proposed dwelling and south of the dwelling too. There is no loss of light.
