COMMENTS:

This is on open greenfield land and not suitable. It is extremely out of keeping with the local character in farley hill. It would be hugely car dependent and we have enough traffic as it is. Not enough local school places as it is. It will be a threat to local wildlife, it contravenes local planning policies protecting agricultural land and rural settlement. Arguably the surrounding areas have already been over developed. It mean a huge distraction of landscapes, ancient woodland, flora, hedgerows and veteran trees. This proposed development is completely unsuitable on countless levels.
