COMMENTS:

I'm writing in Objection to this proposal. The location is the wrong location for this type of operation as it is surround by nature which I enjoy whilst walking the dog most days. They have already demonstrated their disregard for rules and respect for the environment in which they plan to operate by previously starting operations with no suitable leak protection in place and I have no confidence that they will operate safely. This site is structurally unsuitable, the location is unsuitable , the transport links are unsuitable for the numbers and size of vehicles proposed. In short there is nothing which would promote this as a viable business in this location without causing considerable distress to all around it, humans, mammals, amphibian's, birds, fauna etc. Please do not allow this to proceed.
