COMMENTS:

This is a repeat of an application that has already been refused. Reasons for the previous rejection remain the same. The traffic filtering into Wokingham using the Barkham Road is terrible at present - pedestrians can hardly cross the road at peak times - they seem to happen at more regular intervals. There is only one crossing on the Barkham Road and it is near Molly Millar's Lane - too far for the mothers and children trying to cross the road up near the estate that was built on the Guide Dog's site. Only a matter of time before there is a serious accident to pedestrians.
