COMMENTS:

Sir/Madam

Ref: Planning Application 251135

The Location Map submitted with this application appears to be in error.

As you are aware the property known as Rorkes Drift lies immediately to the North and Northeast of The Old Thatch, abutting along much of its northern border. On the Location Map, there are 2 blue rectangles, the southwestern rectangle I believe highlights a paddock part of The Old Thatch property. By inference, the northly rectangle would appear to show that that is also part of The Old Thatch property. This is not the case. This northly rectangle is part of Rorkes Drift. The Coloured Site Plan (submitted with the application) highlights the actual boundary between The Old Thatch and Rorkes Drift.

I have alerted Mr Westell to the situation.

I am sure that my comments will not impinge of any planning decision, but I highlight this situation to avoid any possible future boundary confusions.

Regards
