COMMENTS:

COMMENTS: the committee will be submitted by 5th February 2026 at the latest. appy about the fact that I had no chance to view plans and make comments. The same happened with the the property next door to this - a small building appeared in the back garden which was not on the plans - classed as an office not very good from the bottom of my garden - if I had seen plans I could have asked from some sort of small tree. All work that has been done to my property has had full planning and all neighbours were informed. I think thisd needs to be looked into. Thank you. Will send tographs.
