COMMENTS:

As a resident of Hurst, I moved here for its village feel and rural setting. I strongly object to the building of 99 new homes in Hurst for the following reasons:

It will no longer have a village feel. Which is why many residents live here.

The land is a greenfield site in designated countryside! It should not be built upon.

We do not have the village infrastructure to accommodate the number of homes being suggested!

The harm it will bring to a beautiful field and its inhabitants.

This field is the home to horses and many many animals. All of which would be lost.

Large parts of this field floods!

Hurst does not need this kind of development, Look elsewhere.
