COMMENTS:

This revised proposal is inappropriate and unsustainable on many levels.

This Greenfield site, designated countryside is an integral part of the village. The proposed additional 99 homes will destroy the rural landscape and character of the village.

There will be a huge environmental impact from this development. The local facilities including transport, schools, shops, doctors etc and very limited and under pressure.

The objections raised in the original application 220458 and the appeal against that refusal (APP/X0360/W/22/3309202) are still totally relevant despite the reduction in the number of houses.

Council should refuse this new application.
