COMMENTS:

The surrounding roads cannot sustain the amount of houses proposed in this application.. There are already issues at the junction of Old Wokingham Road and Easthampstead Road with accidents and near misses. And there are huge tailbacks of traffic leading up to Peacock farm along Old Wokingham Rd as there are 2 lanes of traffic given priority from the opposite direction, at the roundabout leading to the A329M, which then blocks the little roundabout. In short, there is no increase/improvement in the infrastructure or services in the surrounding roads/communities.
