COMMENTS:

We are objecting to the proposal of the gypsy traveller site on the land adjacent to Warren Lodge. Warren lodge is a private care facility specialising in compassionate care for 65 and above residents all year around.

The piece of land is on the boundary line for Warren Lodge which is a vital piece of the tranquillity and peaceful surroundings that are highly valued by the residents of Warren Lodge Care Home. The land proposed has several trees which have TPO's on them and due to the area proposed being extremely tight to allow for the correct root protection and therefore the risk of effects to the roots of these trees in the future.

The development has stated that it will be two static pitch and then two touring pitches this is a concern regarding the noise and movements so close to our resident's outdoor space within our grounds.
