Comments On Proposal

The Highways received the clarification of level of luminance from the applicant dated 26th September 2024. The level of luminance of the signage will be reduced to 600 cd/m², aligning with the maximum level recommended for an illuminated area between 2m² and 10m², which is acceptable.

The projecting/hanging sign will be fixed above the existing canopy of private property and will overhang the public highway footway as shown below:

The applicant is therefore advised to contact the council's Highway Assets/Legal team to obtain the relevant licence after this application is consented.
