COMMENTS:

I live on Jennets Park, just down the road from this proposed development. The amount of traffic has increased enormously since we moved here 15 years ago, This development will again hugely increase the amount of traffic using the Old Wokingham Road/Peacock Lane to access the A329/M4. The Old Wokingham Road/Peacock Lane is already regularly backed up and slow moving at Peak times. It will be a nightmare with even more traffic. The amount of new development in the area is getting ridiculous. All the green spaces are being dug up and built upon. When is enough going to be enough? The amount of new development in this area is disproportionate to other areas. The impact on residents and the environment is unfair. I don't understand why so many new houses are allowed to be built in one area? Greed? This area is becoming a congested suburbia as all our green fields are lost.
