COMMENTS:

I wish to object under the grounds of that the land has and is a natural habit and wildlife enclave. This has been so for more than 50 years and has mature and healthy Oak trees within. The site proposed is not appropriate for the location being sandwiched close to a residential care home for elderly and infirm, the noise and pollution would directly affect this property along with the increase and

continuous access and parking on lane.

A main concern is that the proposed site is very close to a buried ma in national oil/fuel supply which is only feet form the site. The proposed site also borders the Devils Highway and the Iron age historical sites of Finchampstead.
