COMMENTS:

I agree with the issues raised by Earley Town Council and ACER.

My primary concern is the lack of compliance with CP3 in respect of the brick finish that may not be in keeping with the original part of the property.

I understand that property owners can do things to potentially devalue their own properties if they choose to do so, but there should be some regard for the overall local vicinity where the finish to an extension will be clearly visible and could be classed as out of keeping with the area and with the original property.
