COMMENTS:

As a Child i lived in Langley Slough, there was a Total oil storage depot just across the railway lines from where I lived with my family, one night this depot caught fire, I to this day some 50yrs later remember the trauma of being knocked up in the middle of the night by the police to be evacuated, our home would have been equi distance as the proposed site to the nearest houses. The size of the flames and the potential of a massive explosion fill me with fear and dread for this proposal, You have elderly residences nearby and I wonder if the potential issues of it all going wrong have been considered, where would all these people go should they need to be evacuated. On these grounds due to my experience I object to this proposal.
