COMMENTS:

The road complex of Watmore Lane, Danywern Drive and especially Maidensfield is not built for 250 more motor vehicles passing through daily, existing properties will lose water and gas pressure. Where is the infrastructure of new surgeries both medical and dental? Community facilities have not been addressed, a palliative of a patch of green field is not the answer Residential parking will be adversely affected by contractor's lorries and vans a potential hazard for arriving and leaving the surrounding schools.
