Dear Mrs Murphy,

TREE PRESERVATION ORDER NUMBER: 786/1996
APPLICATION NUMBER: 252118
LOCATION: 23 EDGCUMBE PARK DRIVE CROWTHORNE WOKINGHAM RG45 6HU

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on the 06 September 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to A1 of TPO 786/1996:

T1, Scots Pine - Fell and grind stump.
T2, Scots Pine - Fell and grind stump.

Reasons stated for works:

Indications of root decay, including presence of fungi.

Officer comments:

An inspection has confirmed that both Scots Pine specimens exhibit colonisation by *Sparassis crispa*, a root and butt decaying fungus. This species primarily affects conifers, particularly *Pinus* spp., and is known to cause a progressive brown rot in the root plate and lower stem tissues. The decay typically leads to a reduction in structural integrity and a significant risk of stem or root plate failure.

Given the location of multiple fruiting bodies, it is reasonable to conclude that both trees have compromised structural stability. The trees are located within a residential area and along a public highway, constituting a high target area with frequent pedestrian and vehicular use. In the event of partial or total failure, there would be a significant risk to people and property.

Due to the nature of this fungus, there are no viable remedial options available to arrest or reverse decay progression. Retention through pruning or reduction would not adequately

mitigate the risk of failure, and monitoring would not reduce the hazard to an acceptable level given the target area.

For these reasons, removal of the affected Scots Pines is considered necessary on arboricultural and safety grounds.

The consent is granted subject to the following conditions:

1. The above works must be completed before **12 November 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 ‘Tree work - Recommendations’.
3. Replacement planting: Following the removal of the subject trees as authorised by this consent, two new trees from the following list must be planted to replace the original trees: *Quercus robur* (English Oak), *Betula pendula* (Silver Birch), *Fagus sylvatica* (Beech), *Castanea sativa* (Sweet Chestnut), *Sorbus aucuparia* (Rowan).

The replacement trees must be planted within the front garden of 23 Edgumbe Park Drive and during the planting season (Nov-March) following or at the time of the felling of the original trees, whichever is soonest following the permitted tree works.

The new tree(s) should be a minimum of 2m tall. Planting should be carried out in accordance with clause 10 (Planting) of BS 8545:2014 ‘Trees: from nursery to independence in the landscape – Recommendations’.

Should the replacement trees be removed, die, or become severely damaged or seriously diseased, all within 5 years of planting, they shall be replaced by trees of a similar size and species to that originally planted. Modifications to the requirements of this condition must be agreed in writing with Wokingham Borough Council Tree and Landscape Team.

PLEASE NOTE: The requirement to replant is the responsibility of the tree owner even if the application was submitted by another person.

Reasons for conditions 1-3

1. To ensure that our records remain accurate.
2. To ensure the health, safety and visual amenity of the tree(s).
3. To maintain canopy cover in the Borough for the benefit of the local environment and amenity.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk

Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the Tree Preservation Order only and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via development.control@wokingham.gov.uk.

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
