COMMENTS:

Approval of this application would make a nonsense of the whole local planning process. This piece of land is not identified in the Local Plan now going through its formal adoption process and is outside the Hurst village development area. While the Local Plan allows limited development in Hurst on both these counts this area would be excluded. There is little doubt that the developer will take this proposal to a Planning Inspector's appeal, if rejected by WBC but buying time to get the Local Plan approved will make it harder for such an appeal to be successful.
