COMMENTS:

Another field and open space taken away from the wildlife , a small herd of deer live here, which moved in from tabby Drive area when that was built .Grazely Road is not a suitable road to cope with more traffic with narrowing road at certain points and cars parked along it won't cope with over 100 more cars which will also add to the congestion joining the Basingstoke Road which is already backed up to Spencer's Wood during rush hour. Cars travel down Grazely Road way to fast in and out of Kingfisher Grove it's not safe for anyone
