Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

New bin store and landscaping works including new tree and planting. Crown lifting of existing trees and removal of some existing trees.

Has the work or change of use already started?

☐ Yes

☒ No

Existing Use

Please describe the current use of the site

Class E- shop

Is the site currently vacant?

- ☐ Yes
☒ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

n/a

Proposed materials and finishes:

Trees and Hedges

Are there trees or hedges on the proposed development site?

- ☒ Yes
☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- ☐ Yes
☒ No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's [Flood map for planning](#). You should also refer to national [standing advice](#) and your local planning authority requirements for information as necessary.)

- ☐ Yes
☒ No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

- ☐ Yes
☒ No

Will the proposal increase the flood risk elsewhere?

- ☐ Yes
☒ No

How will surface water be disposed of?

- ☐ Sustainable drainage system
☐ Existing water course
☒ Soakaway
☐ Main sewer
☐ Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- ☐ Yes
- ☒ No

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption: Development subject to the de minimis exemption (development below the threshold) Reason for selecting exemption: Minor works

Note: Please read the help text for further information on the exemptions available and when they apply

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☐ Other
- ☒ Unknown

Are you proposing to connect to the existing drainage system?

- ☐ Yes
- ☒ No
- ☐ Unknown

Waste Storage and Collection

Details of the pre-application advice received

Please see below what was discussed this morning – subject to revised drawings;

Trees

Tree removal - We agreed to the removal of tree T2 – Sycamore, and the retention of trees T1, T3, T4, T5 – all other trees along the boundary except for a couple of self set Oak trees can be removed.

Tree works - to the retained trees to include crown lifting by up to 5m, cut and removal of Ivy in the retained trees, tidy up around trees and removal of dead branches. Please state the most practical way of removing the Ivy. Is it something that would need to be done over a few visits?

Levels Survey - Survey levels of site, and level out as far as possible in order to assess most practical No Dig system.

Mitigation of surfacing in Root Protection Area - Assess the most appropriate 'No Dig' system based on a levels survey. Use of block paving over 'No Dig' was discussed but is dependent on levels which may result in a slight ramp up to the area.

New Retaining Edge to southern boundary - There may be a need for a retaining edge along the southern border. I suggested that a low wall could be constructed using railway sleepers set at ground level and supported by a galvanised 'I' beam – this approach would be much less invasive, within root protection areas, not using a concrete foundation for the sleeper wall. The means of constructing the sleeper wall and inserting the 'I' beam to be covered in the AMS.

Tree Care / New Wildflower Planting - Retain soft area around the retained trees, fill with 75mm of composted bark and manure . Seed with a wildflower mix for shade / hedgerow

All of the above including updated Tree Protection information based on revised design layout, to be resubmitted in a revised and updated Arboricultural Implications Assessment / Arboricultural Method Statement to BS5837:2012 and to comply with Policy CC03 to protect and retain existing trees.

Hard surfacing

Assess best type of surfacing dependant on outcome of levels survey and 'No Dig' approach. I suggested a 'tumbled' block pavior such as Marshalls Tegula, colour 'Traditional', or a permeable bound gravel solution would be suitable for the site setting.

The northern boundary has an existing pin kerb to the edge along some of its length, which could be retained as appropriate, and if it fits with the design.

Planting

Plant hedge along southern boundary save for bin area at the western end. A Beech hedge is fine but I would like the self set Oak seedlings to be included in the hedge if possible.

If all above is provided a more positive outcome is likely.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

- ☒ Yes
- ☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

- ☐ Yes
- ☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
