COMMENTS:

Shinfield Parish Council comments the following:

- The entrance to the allotments are beyond the parameter gate of High Copse pavilion so access to these allotments would be limited when the gates to the pavilion car park are locked.
- It has been repeatedly stated that these proposed allotments would include disabled access plots (using raised beds and a compacted surface to allow people with limited mobility to access and use) and dedicated educational plots for access by Shinfield schools. This is not reflected in the application documents and the Shinfield Parish Council is concerned that these require specific reference. Submitted on behalf of the Deputy Clerk to Shinfield Parish Council.
