COMMENTS:

The impact on the look of this little peaceful street will be overwhelming. We do not need a three story high-rise. The impact on the already very busy roundabout and the amount of cars on this road. With 10 extra houses we'll have more noise pollution and more pollution. We already have a lot of people parking in our car park visiting people at Ascot House and this will only get worse. The main point is it just isn't needed, They have made enough money from this already haven't they? This was a lovely peaceful street and now we are surrounded by high rises looking into our houses and gardens.
