COMMENTS:

There is absolutely no need for yet another crop of new houses in our village. The so-called Arborfield Green village is STILL being finished and there are still not enough amenities, shops, surgeries etc. anywhere. So adding another 90 houses will not only add to the overcrowding the area is already feeling but also the amount of traffic on our roads. Not green, not necessary. School road is chaos at school drop off and pick up, add a whole new community into the mix and it will become hell. I object to these proposals in the strongest possible manner
