COMMENTS:

We are currently under attack from every developer known to man. This development if it goes through will reduce green space already at a premium, render the local roads unusable due to the sheer volume of traffic. Already in Arbourfield the local roads are unable to cope with the amount of traffic generated by previously agreed developments. This is before you consider the danger created by increasing the traffic around the local school. This development must be rejected. Please Wokingham Council can you re think the local plan in its entirety Arbourfield and local surrounding areas are under siege and there is a real and present danger that this village will be lost forever.
