

## Natural Oak Panel Cladding

Forma Natural Oak composite panel cladding embodies the warmth and character of real oak wood. With its rich and earthy tones, our Natural Oak is the perfect choice for creating a classic and versatile palette that complements any style. This material has a 1mm capping of durable HDPE wrapped completely around the board making it UV stable. The core consists of the same technology in the Clarity range. Made up of 55% reclaimed wood fibres and 45% recycled HDPE.

**From £28.57 per board**
