Dear Ms Duckworth,

TREE PRESERVATION ORDER NUMBER: 1390/2011
APPLICATION NUMBER: 260062
LOCATION: LAND TO THE REAR OF 14 DYER ROAD, WOKINGHAM, RG40 5PG

I am writing to you regarding your application to carry out works to protected tree(s), which was received on 11 January 2026 and validated on the 21 January 2026.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to W1 of TPO 1390/2011:

T001, Oak:

- Fell to ground level.

G001, Oak:

- Reduce lateral branches on west side of crown by 1-1.5m back to boundary of no 14 Dyer Road. Cuts will be graded to leave a natural looking canopy shape and cuts will not exceed 40mm diameter.

Reasons stated for works:

T001 is a slender young sapling with a swept lower trunk and asymmetrical crown west towards the garden of 14 Dyer Road. The tree has no wider visual amenity value from a public viewpoint. The form of the tree is overly slender due to suppression from adjacent trees. The proposed works will remove a potential nuisance tree with no impact on the wider visual amenity of Keephatch Wood. G001 Small trees with significant future growth potential. Owner of 14 Dyer Road wishes to prune the trees in order to manage their lateral spread in relation to 14 Dyer Road. The proposed works are very minor pruning works and the health and wider visual amenity of the tree group will not be affected in any way

The consent is granted subject to the following conditions:

1. The above works must be completed before **18 March 2028** and in the event of the works not being completed by that date, further consent will be required.

2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reasons for conditions 1-3...

1. To ensure that our records remain accurate.
2. To maintain the tree's aesthetic value, structural integrity, and physiological health, and to ensure that the works do not result in excessive leaf loss, large pruning wounds, or other detriments likely to impair the tree's long-term vitality or visual amenity.
3. Spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk

Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent may be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

cc. Applicant – Mr Harvinder Sembi, 14 Dyer Road, Wokingham, RG40 5PG

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
