COMMENTS:

Whilst we are disappointed in the delay of the residential development, we recognise that the extension enables the site to remain in use. However the current fencing between the studios and the Bloor development which is directly opposite residential homes is an eyesore for all residents and visitors and is deteriorating rapidly. If this fence was changed to be more in keeping with the development such as a traditional wooden fence similar to what is used at the boundary between the studios and the Crest development we would be much more supportive of this proposal.
