Appraisal :

Development
Proposed single storey side and rear extension.

The site is a semi-detached property located in the identified settlement of Earley within the Loddon Area Local Plan and Wokingham District Local Plan.

Impact upon neighbouring properties
No 5, adjoining property to the north, has a single storey side extension with no windows to flank wall facing application site. The proposed side extension would align with the front and rear building lines of adjoining property.

No 3, adjoining property to the south has a kitchen window near to party wall which is not a habitable. More importantly it would continue to have the benefit of south sun as existing with no obstruction.

In view of the above it is felt there would no adverse impact upon the neighbouring properties.

Impact upon the character of the area
The proposed side extension is set back some 6m from the front building line of main dwelling and would align with no5. The proposal would have a pitched roof to be in keeping with the character of the main building and adjoining property. The proposal would have no adverse impact upon the character of the area.

Earley Parish Council has objected to the application on grounds that there would be no sufficient off road parking. But Highway section has raised no objection and have recommended approved with condition.

There is a cherry tree at the rear of the site near to the proposed extension which would be felled. Cherry trees are not considered to be rare worthy of protection, hence there is no objection to its felling.

In response to your consultation dated 8th April 2002 for the above application, the tree and landscape comments are as follows:

Although the proposed extension will require the removal of a single cherry tree this is not protected by a TPO nor is it a locally significant landscape feature.

I therefore do not wish to raise an objection to the granting of planning consent.
