DATE SUBMITTED : 10/06/2025

COMMENTS:

I object strongly object to this proposal.

The site is in an area prone to flooding and on the border of a nature reserve and popular footpaths.
It is also located on a busy road, which is narrow and already impacted by vehicles for the tyre facility parking on the road. The only ways to access the road are via Twyford and Charvil villages. The additional traffic will have a negative impact on air quality in both villages.
