COMMENTS:

To Sir/Madam

I am writing to object to this planning. As a member of the Angling club this could cause major issues with potential risk of pollution and could potentially undo all the hard work made by both the members and WBC to make the country park a haven for wildlife and a joy to walk around. As I have been a member for the last 18 months or so I have seen the extent of the flooding that has occurred and this is a big concern for potential pollution. The noise of vehicles and light pollution entering the site will also have a major impact on local residents and dog walkers. Kind regards, Simon
