COMMENTS:

My objection is to a through road being built through Shepherd Road to access the proposed new estate. When buying my home I did not do so wishing to live on a busy road. This would cause more traffic which will be dangerous to the many children and animals on the close as well as then making it difficult to park outside my home and exit our driveways. It will also increase traffic at busy times as people will use it to avoid traffic on the main roads. If the estate is built then there should be entrance only from one end and it should not be able to be accessed via Shepherd Road.
